

## Shusuke Izui Wins Student Poster Award

Shusuke Izui, a student clinician at the 15th Annual JDA / DENTSPLY Student Clinician Research Program held in August 2009, recently won the Student Poster award at the 51st Japan Association for Oral Biology Annual Meeting for his poster presentation titled, "The growth-inhibitory activity of turmeric against *Streptococcus mutans*."

Izui said, "The experience of participation in the SCRP Japan program stimulated me and was a trigger to this award. I would like to continue further studies."

Izui is a fourth year student Osaka University School of Dentistry.
