

## University of Birmingham – Megan Cross

The 2009 DENTSPLY/British Dental Association Student Clinician Programme was hosted at the BDA headquarters. Thirteen schools entered the competition for judging. The winners of the competition were announced that evening at a dinner hosted by DENTSPLY International.

University of Birmingham Dental School student, Megan Cross was the first place winner, and presented her entry “DNase Activity within Dental Plaque and Gingival Crevicular Fluid During a 21 Day Experimental Model of Gingivitis” at the American Dental Association meeting in Honolulu, HI in October.
